

## Vector EPro8 Challenge, Our journey as E=MC Squared

---

### Ginger, Zoe, Mia and Poppy

#### Our team name

Coming to our first Vector EPro8 Challenge meeting we did not know each other, all we knew was we had all signed up to be part of Epro8. We joined as a team and the teacher asked for our team name. One of us just kind of said it on the spot and it stuck and that's how E=Mc Squared came about!

#### What we are good out

It was really easy to work with each other because we all had our own unique talents and were using them to the best of our ability.

#### What makes us unique

We are an all girls school! However, we don't see ourselves being any different to any of the other teams. Our gender does not change anything as what counts is how we work together as a team and use our own talents to the best of our ability.

#### Biggest achievements during Vector EPro8 Challenge

Placing second in both the first competition and semi finals!
